Notice of amendment form

To be completed where an amendment is proposed to the terms of a project that has previously been reviewed and approved by a UAL research ethics committee.

Please complete in language comprehensible to a non-expert.

Ethics reference from original review:	Attached via email
Full title of study:	PhD
Applicant name (project lead):	Jen Sykes

Type of amendment:

- Amendment to the original ethics application form ☒
- Amendment to the project plan
- Amendment to supporting documentation (e.g. participant information and consent documentation; questionnaires/surveys; letters of invitation; participant recruitment documentation, etc.) ☐ ☐

Summary of changes
Briefly summarise the main changes proposed in this amendment in language comprehensible to a non-expert. Explain the purpose of the changes and their significance for the study.

There aren't many changes. It's more my original approval happened before the CCI ethics committee was formed and this procedure existed in a different format. The only small change since my last ethics clearance is the participants I will do the next study with will **not** be my students as they previously were. They will be students from another institute that I do not teach.

What potential risks to the interests of participants do you foresee and what steps will you take to minimise those risks?
A participant's interests could include their physical and psychological wellbeing, their commercial interests, and their rights of privacy and reputation.

In addition to the original risk set out in the original form.

I need to provide a point of contact within the institute I will conduct the study should there be any issues participants need to raise externally.

This point of conduct is Paul Maguire (Head of Interaction Design at the Glasgow School of Art).

What potential risks do you foresee to yourself as the researcher or to researchers you manage and what steps will you take to minimise those risks?
E.g. does the amendment raise issues of personal safety for you or others involved in the project?

No additional risk I haven't set out in the previous form.

Any other relevant information
Include any other ethical risks or specific ethical issues relating to the amendment on which the advice of the reviewers is sought.

No additional information not set out in the original form

List of attached documents
Include all amendments as Track Changes or otherwise highlight. Ensure amended documents include new version numbers and dates.

- Original ethics application form ☒
- Project plan/outline ☒
- Participant information documentation ☐
- Participant consent documentation ☒
- Surveys/questionnaires/interview schedules/topic guides ☒
- Approved instruments/measures to be used ☐
- Recruitment material/text to be used to recruit participants ☐

Declaration
To be signed by the applicant/lead researcher

- I confirm that the information in this form is accurate to the best of my knowledge and I take full responsibility for it
- I consider that it would be reasonable for the proposed amendment to be implemented

Signature of applicant/ lead researcher:	
Print name:	Jennifer Sykes
Date of submission:	31.3.2026
